

February 2019

Commuter of the Month

Michelle O'Kelley

My decision to move to the Twin Cities many years ago was influenced in part by the great transit system here. I love riding the bus!

Here's why:

The time and money I've saved in the past 30+ years is phenomenal! I call it my decompression time after the workday; I get to listen to podcasts (or the latest bestseller) and catch up on emails.

During the summer months, it's a breeze to put my bike on the bus. It's a great way to enjoy the awesome bike trails in the Twin Cities!

Taking transit has allowed me to get to know some great people who have become my "bus buddies".

I encourage all commuters to give transit a try!

Don't know how to take the bus or train to work? Commuter Services can help with a free personalized transit itinerary (plus 2 free ride passes), instructions on how to put your bike on transit, and more.

Visit our Commute Assistant to request our transit and bike resources. We offer carpool, telework and vanpool resources too!
